Model Number Decoder

The item number you are ordering can be identified or generated by:

- 1. Start with initials representing the Collection you are purchasing (see below).
- 2. Add either an "R" or "S" depending on whether you want rounded or squared edges on the hood and tray.
- 3. Add the 2 digit number representing the metal finish you are selecting.
- 4. Add the 2 digit number representing the feature option you are selecting.

(Example: IFR1004 represents Inspriation Falls, Rounded Edges, Rustic Copper, Rajah Slate)
